The Power of Having your Islamic Financial Business Optimized for Search Engines!

- Search engines are the tool of choice for solving unanswered questions, and finding a product or service!
- Nearly 250 million searches are performed per day on Google alone!
- 93% of consumers research products online before making a decision!
- Search Engines Optimization is the only form of marketing that puts your business (services or products) in front of prospective customers who are actively seeking what your company has to offer.
- If you do not optimize your online presence, your competition will, and you will be left behind!

“Islamic Finance” Lives On Social Media!

One of social media's greatest benefits to brands is the ability to scale up customer engagement with value creation.

The most immediate and valuable type of interaction were, until recently, facilitated mostly by one-on-one engagements that demanded extensive human resources and expenditures.

Engagement via social media has more to offer than recruiting customers and driving sales.

The Power of Social Media!

- Social media can help extend the customer life-time by creating loyalty, optimize by turning customers into brand advocates, and enjoy additional leads and sales.
- Engagement through social media can generate insights from customers which can lead to better products and services.
- Social media has the power to bring consumers closer to organizations, like never before!

Power your Islamic Financial Business with Targeted Online Marketing

- Spend your marketing budget only on prospective clients!
- Less expensive than purchasing advertising for TV, radio or print.
- Online marketing results are more measurable than traditional media campaigns, and campaign data & results are available immediately.
- Online marketing is affordable & accessible to any business size or type.
- Allows for the ability to create marketing messages & changes on the fly.
